

**LEGAL NOTICE**

**STATE OF LOUISIANA, OFFICE OF CONSERVATION, BATON ROUGE, LOUISIANA.**

In accordance with the laws of the State of Louisiana, and with particular reference to the provisions of Title 30 of Louisiana Revised Statutes of 1950, a public hearing will be held in the Hearing Room, 1<sup>st</sup> Floor, LaSalle Building, 617 North 3<sup>rd</sup> Street, Baton Rouge, Louisiana, at 9:00 a.m. on **TUESDAY, FEBRUARY 3, 2009**, upon the application of **SWEPI LP**.

At such hearing the Commissioner of Conservation will consider evidence relative to the issuance of Orders pertaining to the following matters relating to the **Cotton Valley Formation, Reservoir A and the Haynesville Zone, Reservoir A**, in the Pleasant Hill Field, DeSoto Parish, Louisiana.

1. To create one (1) additional drilling and production unit for the exploration for and production of gas and condensate from the Cotton Valley Formation, Reservoir A.
2. To create one (1) additional drilling and production unit for the exploration for and production of gas and condensate from the Haynesville Zone, Reservoir A.
3. To force pool and integrate all separately owned tracts, mineral leases and other property interests within each of the proposed units with each tract sharing in unit production on a surface acreage basis of participation.
4. To provide that any wells drilled to the Cotton Valley Formation, Reservoir A, within or outside the units created herein, should be located in accordance with the spacing provisions of LAC 43:XIX.1901 et seq. (Statewide Order No. 29-E).
5. That any future wells drilled to the Haynesville Zone, Reservoir A, within or outside of the units created herein, should be located no closer than 330 feet from any unit line and no closer than 660 feet to any well on a competitive unit completed in, drilling to, or for which a permit has been granted to drill to the Haynesville Zone, Reservoir A, and to provide that with respect to horizontal wells drilled to the Haynesville Zone, Reservoir A, where the horizontal portion of the well is cased and cemented back above the top of the Haynesville Zone, Reservoir A, the distance to any unit boundary will be calculated based on the distance to the nearest perforations in the well and not based on the penetration point or terminus.
6. To consider such other matters as may be pertinent.

The Cotton Valley Formation, Reservoir A is hereby defined as being the stratigraphic equivalent of that gas and condensate bearing zone encountered between the depths of 9,870' and 11,135' (electrical log measurements) in the Philips Petroleum Company-Martin B No. 1 Well, located in Section 32, Township 11 North, Range 10 West.

The Haynesville Zone, Reservoir A is hereby defined as being the stratigraphic equivalent of that gas and condensate bearing zone encountered between the depths of 11,135' and 13,140' (electrical log measurements) in the Philips Petroleum Company-Martin B No. 1 Well, located in Section 32, Township 11 North, Range 10 West.

Plats are available for inspection in the Office of Conservation in **Baton Rouge and Shreveport**, Louisiana.
